ABOUT US

MODERN EQUIPMENT GENERAL TRADING CO.

Modern Equipment General Trading Co., based in Muscat, provides engineering, procurement, fabrication, erection & project management of medium to heavy structural steel works for the Water, Energy & Port sectors.

Leveraging nearly 30 years of combined industry experience, we specialize in oil & gas equipment, water infrastructure & structural and building materials. To ensure modern, well-designed solutions, we import high-quality products from Europe. With a monthly capacity of 1,200 MT, our skilled crews and dedicated cranes execute projects efficiently, safely & to the highest quality standards. Operating to ASME, API, AWS and ISO standards, GSS is a trusted partner for EPC & general contractors.

● Prefabricated Steel Structure

Steel structures in industries such as Oil & Gas and petrochemical plants play a crucial role in project success. Gulf Supply Solution, with access to leading manufacturers and top brands in the region, supports clients and contractors by delivering high-quality prefabricated steel structures within minimal timeframes.

Our products:

- Piperacks, Equipment Structures
- Steel Bridges
- Steel Structures
- Stacks
- Ejectors
- Structural Steel
- Skid Package

● Hydromechanical Equipment for Dam

Our experience in successful completion of design, fabrication and erection of hydro-mechanical equipment of more than 80 dams makes us the most experienced and well developed manufacturer.

The manufacturing scope for hydromechanical equipment includes:

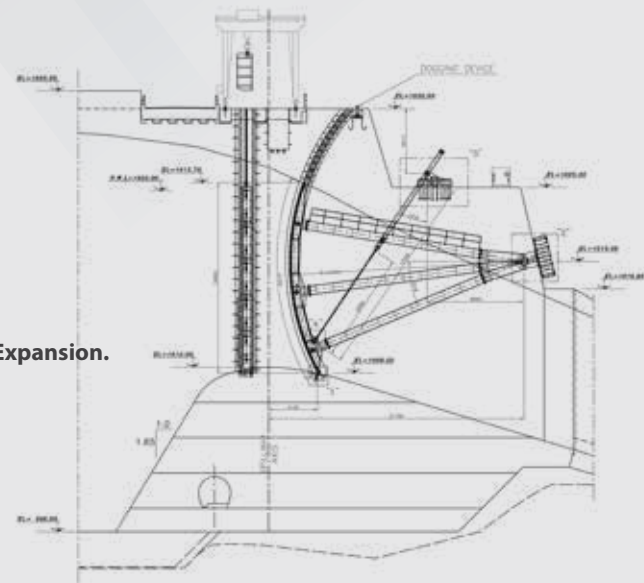

Our products:

- Slide bonnet Gates
- Spillway & Service Radial Gates
- Wheel Gates
- Fuse Gates
- Stoplogs
- Trashracks
- Various types of Steel lining:

Spiral casing, Y Branch, Three Branch Transition, Box. Reducer and Expansion.

- Gate Accessories for lifting equipment:
Dogging devices, Trunnion Beam, Jack Support, Lifting Beam)
- Miter gates
- Sector Gates
- Open Channel Level Control Gates AVIS, AMIL, X, XX, C, L, AVIO

● Pressure Vessels

Gulf Supply Solution can supply different vessels mostly used in oil and gas industry.

As a leading manufacturer of pressure vessels, we handle the design and fabrication of various types of vessels, including separators, drums, filter vessels, deaerators, columns & storage tanks.

Our products:

- Desalter
- Seperator
- Tickwalled Vessels
- Column
- Deaerator
- Silos

- **Overhead Travelling Cranes & Gantry Cranes**

Modern Equipment General Trading Co., as the exclusive regional representative of BVS from Turkey, proudly provides high-quality Overhead Travelling Cranes and Gantry Cranes for a wide range of industries. With our extensive experience in engineering & supply projects, primarily in the oil & gas sector, we focus on delivering reliable and efficient lifting solutions to meet the demanding needs of our clients.

BVS Bülbüloğlu Crane Industry, established in 1985 in Ankara, Turkey, has grown to become a leading manufacturer in the crane industry. Renowned for its strength, reliability & innovative solutions, BVS has earned the trust of clients worldwide & holds a prominent position in the Turkish industrial market. Through our partnership with BVS, **Modern Equipment General Trading Co.**, ensures that customers in the region have access to cutting-edge crane technology backed by decades of expertise.

► **Harbour Crane**

BVS Cranes has 400 employees, around 100.000 square meters' indoor area manufacturing facilities, headquarters in Ankara, İstanbul, İzmir, Germany & USA Regional Sales and Service offices, Çukurova Service Office, domestic & international dealer network, common after sales service network & cooperation with the world brands related to the crane industry.

BVS Cranes are operating in Turkey and at the same time more than 92 countries all over the world.

Modern Equipment General Trading Co., offer periodic maintenance, spare parts, consultancy & service to all customers in UAE.

● Skid-Mounted Processing Facilities

Modern Equipment General Trading Co., provides Skid-Mounted Processing Facilities, fabricated and assembled in-house to deliver high-quality, cost-efficient & ready-to-deploy units.

Our modular approach helps accelerate project schedules while meeting the demanding needs of the oil, gas & industrial sectors.

Our products:

- 1st Stage Separator
- Dehydrator
- DE salter
- Wash Water Recirculation Pumps
- Charge Pumps
- Crude/Crude Exchangers
- Crude Oil Heaters
- Fuel Gas Package
- Crude Oil Rundown Cooler
- Wash Water Heat Exchangers
- The Manifold
- Produced Water Treatment
